

HEDQF Digital Conference: Planning a sustainable future for universities

13th – 15th July 2021

Sponsorship

HEDQF thank the following organisations for Conference Sponsorship

Overbury

Overbury is the UK's leading fit out and refurbishment specialist and has worked with over 30 universities across the UK including UCL, King's College London, the University of Warwick, and Staffordshire University. With a dedicated higher education team, Overbury carries out refurbishment and fit out projects ranging from teaching and social spaces, laboratories, libraries, and lecture theatres. All education clients are different and face unique challenges with their building stock, so Overbury believe in providing a flexible approach and take pride in working closely with clients, to understand their requirements and deliver high quality results on time and to budget. Overbury has a highly skilled environmental management team who have helped achieve a series of firsts on environmentally assessed projects, including the largest BREEAM Outstanding fit out to date, and the first SKA HE Gold rated project.

Further information can be found at: <https://www.overbury.com/higher-education-fit-out-refurbishment> as well as a recent thought-piece on the future development of life-sciences ready facilities: <https://www.overbury.com/life-sciences-hype>

Buro Happold

Buro Happold is an international, integrated consultancy of engineers, consultants and advisers, operating in 26 locations worldwide, with over 70 partners and 1,900 employees.

We work with the world's top Education institutions to deliver award winning and outcome-enhancing projects. We lead the response to the current challenges facing the sector; our responses to Climate Change and effective operation with Social Distancing are second to none and are core to reducing risk and improving institutional resilience. Clients include the University of Edinburgh, the University of Cambridge, Newcastle University and the University of Bristol.

We have continued to build on our success in the Higher Education Sector this year. We are proud to have been named as Education Estates 'Consultancy of the Year' for two consecutive years and the CIBSE Building Performance large consultancy of the year for four years running. Despite the challenges of the last eighteen months, we continue to win and deliver world class projects, assisting our clients with developing their estates for a rapidly changing future..

Rogers, Stirk, Harbour & Partners (RSHP)

Rogers Stirk Harbour + Partners is an international architectural practice based in London. Over the past four decades, RSHP has attracted critical acclaim and awards with built projects across Europe, the Americas, Asia and Australia.

The practice is experienced in designing a wide range of building types including office, residential, transport, education, life science, culture, leisure, retail, civic and healthcare. The quality of its designs has been recognised with some of architecture's highest awards, including two RIBA Stirling Prizes, one in 2006 for Terminal 4, Madrid Barajas Airport and the other in 2009 for Maggie's West London Centre.

RSHP is known for their designs, innovation, use of new technologies, sustainability measures and strategic thinking. Key to the practice's design philosophy is the importance of the urban realm and the creation of public spaces that link the inside and outside of buildings.

Education projects designed by the practice include LSE Centre Building; The National Graduate Institute for Policy Studies (GRIPS), a graduate school and research institute in Kyoto, Japan; Mossbourne Community Academy in London; Minami Yamashiro Elementary School in Kyoto; H-farm, an education campus to encourage entrepreneurs and start-up businesses from kindergarten to university level in Roncade, Italy and Thames Valley University in Slough.
